

M&G QLD is the peak professional body for the public museum and gallery sector in Queensland, representing a network of more than 400 organisations across the State.

New *Practical Guide* for our 'energy-hungry' museums and galleries

Museums & Galleries Queensland (M&G QLD) is pleased to announce the release of ***A Practical Guide for Sustainable Climate Control and Lighting in Museums and Galleries***.

M&G QLD's Executive Director, Rebekah Butler, said "Increasingly, museums and galleries are looking for ways to reduce their operating expenses and carbon footprint and to improve their long-term sustainability by using appropriate technologies, products and systems."

"Prepared by lead consultancy firms Steensen Varming and International Conservation Services, *A Practical Guide for Sustainable Climate Control and Lighting in Museums and Galleries* is informed by national and international theory and practice."

"In developing this resource, we hope to assist our sector to make informed decisions around viable, economically and environmentally sustainable methods of exhibition practice and collections care."

This project is delivered by Museums & Galleries Queensland in partnership with Museums & Galleries of New South Wales, Regional and Public Galleries Association of New South Wales and Regional Galleries Association of Queensland.
