2024 Conference Theme

How can we, as a sector, foster inclusion and belonging? How do we build empathy and understanding in our communities? How can arts, culture and heritage bridge divides and bring people together?

Museums and galleries are dynamic cultural hubs in our communities that tell stories and create meaningful experiences about who we are, where we live, our pasts and futures. As trusted organisations, museums and galleries are able to navigate complex societal issues and actively engage our audiences in important conversations about the world in which we live through exhibitions, education programs and public outreach.

Belonging will examine how museums and galleries are embracing inclusivity and working with artists, collections, industry leaders and communities to drive positive change in areas of accessibility, diversity and equity.

Principal Sponsor:
